**CIRCULAR**

Sub: Upgraded version of FAMOUS software (Version 2.0) – reg.

\*\*

Dear All,

The F&A is happy to inform all the University fraternity that we are upgrading the FAMOUS software (Version 2.0), which has improved navigation and features. This will facilitate the users in many ways and reduce the steps in raising and submitting the bills.

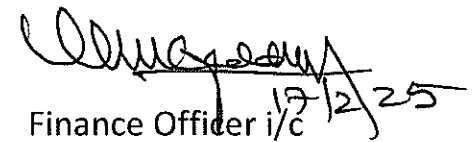

I profusely thank the Joint Registrar-1, Shri Budida Srinivas for his ideas, efforts, working through its design, preliminary testing & validation. Of course, I thank Shri K. Ashok Reddy for putting up the pace with Shri Srinivas.

This Version 2.0 can be tried from the new boxes / buttons displayed on the FAMOUS home page.

We request you to go through this new version (trial) and let us know your feed back to improve it further and release the final version soon.

To facilitate the PIs who got used to the existing navigation, the top panel is retained and you may continue to use the old version as well.

Same functionality can be achieved through both versions (old and new). So, you can use both the versions, as per your convenience.

  
Finance Officer i/c 17/2/25

To

All the Units / Project Investigators / Faculty

Copy to: 1) Director, CC & CNF / Webmaster – to circulate thru' GApps and upload on UoH website
